Transitional Return to Work Program

Introduction

Saugus Union School District's most valuable assets are our employees. The District has implemented the Return to Work Program to return injured employees to work after an injury. It provides an innovative and professional approach to taking care of our most valuable asset during a time of need.

The Governing Board recognizes that, when employees have temporary disabling medical conditions, temporary modified or light-duty assignments can allow the district to continue to use their valuable knowledge, skills, and abilities while minimizing time away from work. Temporary modified/light-duty assignments may also serve to facilitate the employee's transition back to his/her regular duties or full-time work.

In order to assist injured employees with the recovery process and to encourage an early return to work status, the District has implemented a program which reviews, on a case by case basis, the restrictions outlined in the physician's medical report to determine if an injured employee can return to work with modifications to their usual and customary job or to a temporary modified/alternative work assignment.

Definition and Parameters

Modified work assignments are temporary assignments to assist the injured employee to transition back to his/her regular duties or full-time work. This type of duty is a "transitional" process which enables the employee to return to work until medically recovered and able to return to his/her regular duties. The maximum duration of the transitional assignment will be determined on a case by case basis.

TEMPORARY MODIFIED/LIGHT DUTY ASSIGNMENTS

4313.4

Program Objectives

- A. Provide a means for an injured employee to return to the workplace as soon as safely possible.
- B. Provide a means of maintaining the employee's job skill, self-esteem and morale, while enabling him/her to progress back to his/her regular duties.
- C. Maintain organizational productivity by allowing the employee to perform tasks that are part of the employee's normal assignments or assist in another department if necessary.
- D. Reduce the need for temporary help due to the absence of the injured worker
- E. Improve communication with the injured employee and ensure them of their value at the District.
- F. Reduce extended periods of medical treatment and associated costs. Injured employee recovery periods are lessened if accommodated assignments are made available in lieu of remaining at home.

Operating Procedures for industrial Injuries

- A. The employee would notify their supervisor of an injury and to obtain the proper forms to complete. They will then call Company Nurse who will determine if medical treatment is appropriate. If treatment is deemed necessary Company Nurse will make a referral to an authorized medical provider within the network (MPN) and an authorization for treatment will be automatically sent.
- B. The medical provider will evaluate the employee provide treatment within ACOEM guidelines and determine whether to return the employee to unrestricted regular duty or if temporary work restrictions are necessary.
- C. The employee must provide the doctor's note to their supervisor or to the Return to Work coordinator/Risk Manager, Tonia Erickson at the District Office, so that the District can proceed with an interactive meeting to review and determine if temporary accommodations can be made.
- D. The Return-to-Work Coordinator will review the medical report and the employee's job description.
 - 1. If the medical report lists restrictions, the Return-to-Work Coordinator along with the employee's supervisor and the employee will review and determine if the employee can return to their regular job within the restrictions.

TEMPORARY MODIFIED/LIGHT DUTY ASSIGNMENTS (continued)

2. If the Return-to-Work Coordinator in conjunction with the employee's supervisor and the employee determines the employee cannot return to their regular job within the restrictions, the Return-to-Work Coordinator will attempt to place the employee in a temporary modified/alternative work assignment within the restrictions outlined in "Physician's Medical Report".
 3. If the Return-to-Work Coordinator in conjunction with the employee's supervisor and employee determines the employee cannot return to their regular job or to a temporary modified/alternative work assignment within the restrictions, the employee will be placed on temporary disability, sick leave, or other available leave until the restrictions have been changed or are removed.
- E. A modified/alternative work offer letter, listing the restrictions and defining the employee's responsibilities must be provided and signed by the employee and supervisor
- F. If the employee refuses the temporary modified/alternative work assignment, no temporary disability payments are payable, and sick leave/other leaves will be subject to approval by the Human Resources Department.

If the employee is given an "Off Work Order - Temporary Total Disability" from the treating physician, this should be closely monitored by the Return-to-Work Coordinator for a possible return to a temporary modified/alternative work assignment.

For Non-Industrial Injuries

- A. The employee would notify their supervisor of an injury and to obtain the proper forms to complete.
- B. The employee must provide the doctor's note to their supervisor or to Luz Blanco in the Human Resources department, at the District Office, so that the District can proceed with an interactive meeting to review and determine if temporary accommodations can be made.
- C. The HR Department will review the medical report and the employee's job description.
 1. If the medical report lists restrictions, the HR Department along with the employee's supervisor and the employee will review and determine if the employee can return to their regular job within the restrictions.

TEMPORARY MODIFIED/LIGHT DUTY ASSIGNMENTS (continued)

2. If the HR Department in conjunction with the employee's supervisor and the employee determine the employee cannot return to their regular job within the restrictions, the HR Department will attempt to place the employee in a temporary modified/alternative work assignment within the restrictions outlined in "Physician's Medical Report".
3. If the HR Department in conjunction with the employee's supervisor and employee determines the employee cannot return to their regular job or to a temporary modified/alternative work assignment within the restrictions, the employee will be placed on sick leave or other available leave until the restrictions have been changed or are removed.
4. A modified/alternative work offer letter, listing the restrictions and defining the employee's responsibilities must be provided and signed by the employee and supervisor
5. If the employee refuses the temporary modified/alternative work, sick leave/other leaves will be subject to approval by the Human Resources Department.

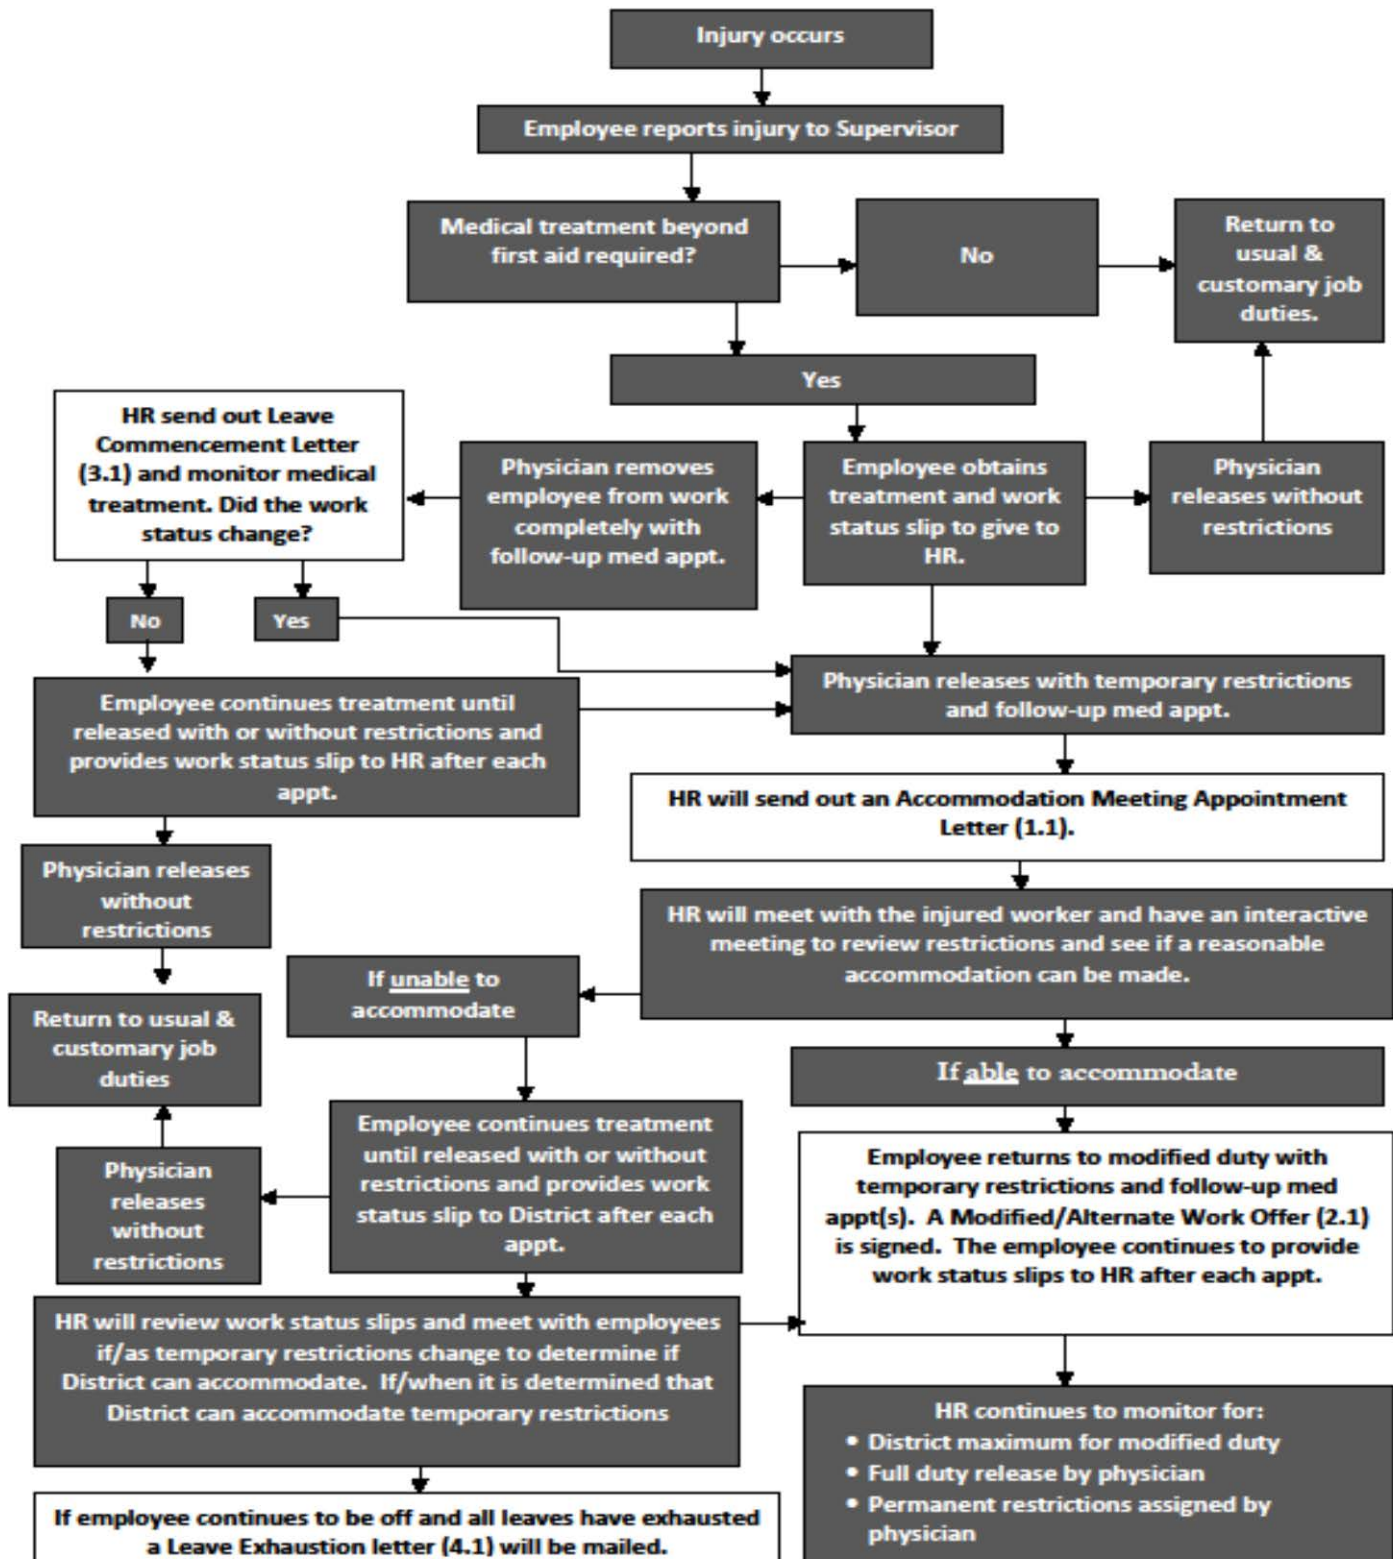

If the employee is given an "Off Work Order" from the treating physician, this should be closely monitored by the HR Department for a possible return to a temporary modified/alternative work assignment.

Program Provisions

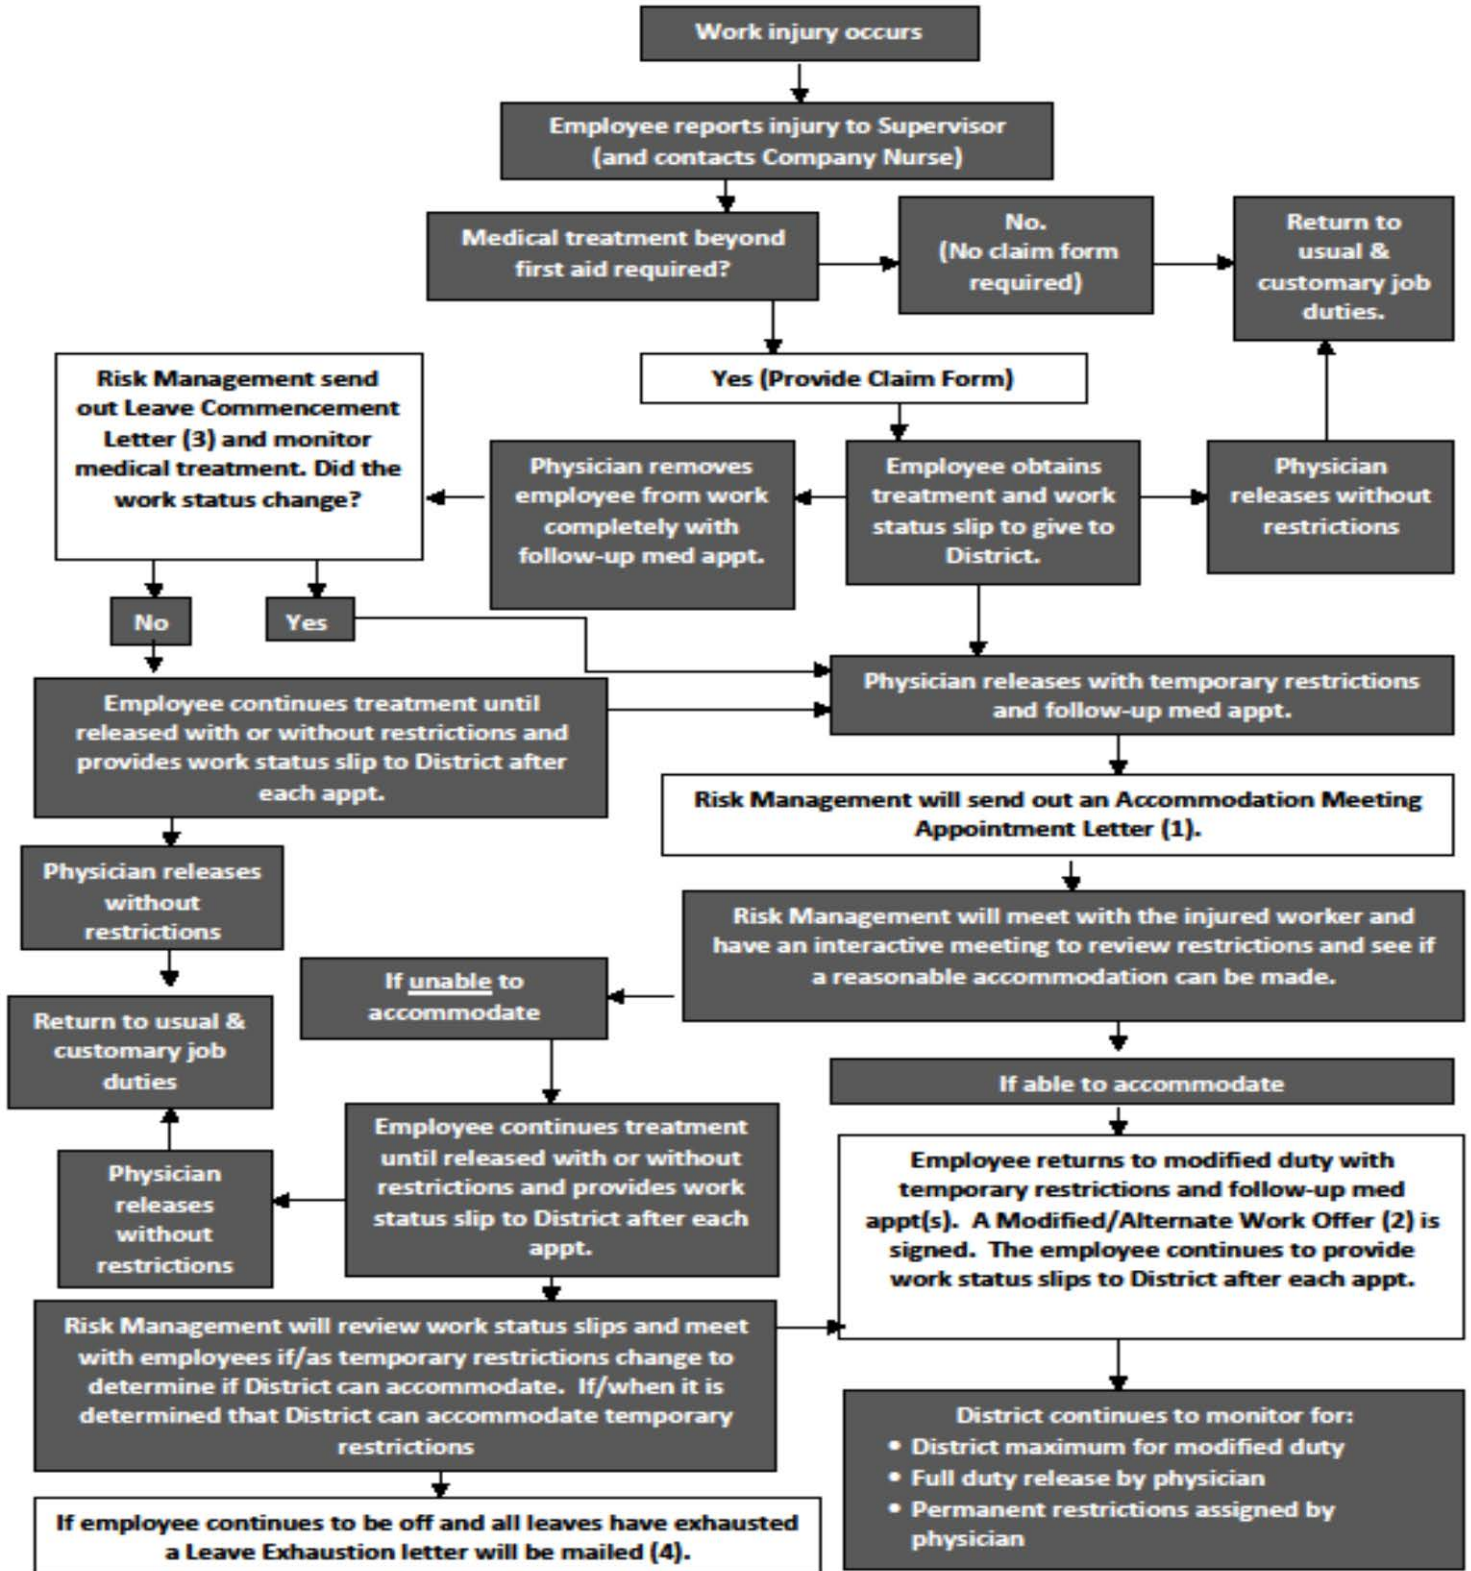

- A. Under no circumstance does this program intend to permanently establish new positions within the District. Its intent is to continue to use the employee's valuable knowledge, skills, and abilities while minimizing their time away from work.

The District recognizes the benefits of implementing a Return-To-Work Program in accordance with the aforementioned terms and, therefore, agrees to voluntarily participate in adopting such a program
