

INDEPENDENT STUDY

The Governing Board authorizes independent study as an optional alternative instructional strategy for eligible students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan and enabling students to reach curriculum objectives. As necessary to meet student needs, independent study may be offered on a full-time basis or on a part-time basis in conjunction with part- or full-time classroom study.

(cf. 0420.4 - Charter Schools)

(cf. 6011 - Academic Standards)

(cf. 6143 - Courses of Study)

(cf. 6146.1 - High School Graduation Requirements)

(cf. 6181 - Alternative Schools/Programs of Choice)

(cf. 6200 - Adult Education)

A student's participation in independent study shall be voluntary. Students participating in independent study shall have the right, at any time, to enter or return to the regular classroom mode of instruction. (Education Code 51747; 5 CCR 11700)

Parents/guardians of students who are interested in independent study shall contact the Superintendent or designee. The Superintendent or designee shall approve independent study for an individual student only upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than he/she would in the regular classroom.

The minimum period of time for any independent study option shall be five consecutive school days. The Superintendent or designee shall ensure that a written independent study agreement, as prescribed by law, exists for each participating student. (Education Code 51747)

Independent Study contracts shall be for a minimum of five days. Assignments must be completed and handed in upon return to classroom. Because excessive leniency in the duration of independent study assignments may result in a student falling behind his/her peers and increase the risk of dropping out of school, independent study assignments shall be no more than three weeks for all

INDEPENDENT STUDY

grade levels and types of program. However, when necessary based on the specific circumstances of the student's approved program, the Director of Pupil Services may allow for a longer period of time between the date an assignment is made and when it is due, up to the termination date of the agreement.

When a participating student misses three assignments, an evaluation shall be conducted to determine whether it is in the student's best interest to remain in independent study. However, a student's written agreement may specify a lower or higher number of missed assignments that will trigger an evaluation when the Superintendent or designee determines it appropriate based on the nature of the assignments, the total number of assignments, and/or other unique circumstances.

Supervising teachers should establish an appropriate schedule for student-teacher conferences in order to help identify students falling behind in their work or in danger of failing or dropping out of school. Except in unusual circumstances, it is expected that the supervising teacher will meet, either in person or by electronic means, with each participating student at least once a week to discuss the student's progress.

(cf. 5147 - Dropout Prevention)

Missing appointments with the supervising teacher without valid reasons also may trigger an evaluation to determine whether the student should remain in independent study.

The Superintendent or designee shall annually report to the Board the number of students participating in independent study, the average daily attendance generated for apportionment purposes, the quality of these students' work as measured by standard indicators, and the number and proportion of independent study students who graduate or successfully complete independent study. Based on the program evaluation, the Board and Superintendent shall determine areas for program improvement as needed.

(cf. 0500 - Accountability)

(cf. 5121 - Grades/Evaluation of Student Achievement)

(cf. 6162.5 - Student Assessment)

INDEPENDENT STUDY

Home-Based Independent Study

The Superintendent or designee shall encourage parents/guardians desiring to teach their children at home to have their children participate in independent study. Such participation allows continued contact and cooperation between the school system and the home-based student and ensures that the student will be offered a standards-based education substantially equivalent in quality and quantity to the district's classroom instruction.
